IMPERIAL OIL CO. RIGGING UP STANDARD TOOLS

FOR FABYAN WELL

OWNERS OF LEASES NEAR IRMA COMBINE HOLD, INGS FOR DEVELOPMENT

The fast time, in making hole, accomplished by the drillers at the Imperial Oil Co's well east of Irma, has created a great deal of interest among oil men. In less than two months, part of which time the weather has been year, old, somewhere about two thousand feet. of. ten inch hole has been made. This has usually taken a whole summer to accomplish with the old style of rig. Not only has considerable time been syved, but a larger hole has been put down through the heavy gas pressure, which has been find former attempts in this district.

In order/to hold the ten inch pipe in place, and to prevent the gas from forcing its way back in the casing, we maderstand that over one hundred bags of cement have been put down through the heavy gas pressure, which in get wis busy lating its way back in the casing, we maderstand that over one hundred bags of cement have been put down through the benefit of the hole. While this cement is setting, the drilling its way back in the casing, we maderstand that over one hundred bags of cement have been put down through the benefit of the hole. While this cement is setting, the drilling in the baler. Should another heavy flow from the sands while the drilling in the baler. Should another heavy flow for gas be found it may be necessary to set another string of gas be found it may be necessary to set another string of gas be found it may be necessary to set another string of the drilling in the baler. Should another heavy flow for gas be found it may be necessary to set another string of the drilling in the baler. Canada's Needs

No. 6-Scientific Research

No. 6—Scientific Research

In the course of the several articles which have appeared in this column
under the above general heading, some of Canada's needs have been enumerated but only in the most general way has any attempt been made to suggest
ways and means of meeting and providing for those needs. Recently, however, a little pamphlet has been issued by the Honorary Advisory Council for
Scientific and Industrial Research which merits the serious consideration of
the Canadian people and is worthy of the widest possible circulation. It
presents at least one very practical suggestion how some of the needs referred to, more particularly in the fourth article of this series, can be met.
It is, therefore, proposed to quote at some length from the pamphlet in question which it entitled "Research and the Problems of Unemployment, Bush
neas Depression and National Pinance in Canada."

"I am not a protectionist but I say this," declared a statesman now dead.

"The variety of work carried on among the citizens of Canada should be as
comprehensive as possible.

"Not because we are thus enabled to boast of the number of our trades
—that would be mere vanity.

"Not merely because our country should be able-to fill as many as possfible of its own needs without having to ask foreign aid...

"Not merely because our country should as soon as possible to finish the
raw material with which Nature endowed us—rather than confess our helpsenses by asking foreigners to finish them for us and giving them the wages
and the profit on our ray materials.

"Not merely because our country should as soon as possible escape from
dependence for its prosperity on any one kind of production but should divide
the risk among many.

"But because Canada should retain her most ambitious sons and adaylecress within declared as the variety of

sepensence for its prosperity on any one kind of production but should divide the risk among many.

"But because Canada should retain her most ambitious sons and daugh-ters within sher own boundaries by encouraging for their sakes that variety of occupation from engineering to farming—from chemistry to literature—which, if they want the highest awards and honors, they are still compelled nowa-days to seek abroad."

days to seek abroad."

One of the serious drains on the strength of the Dominion of Canada is the annual loss of engineers, chemists, scientific farmers and technical experts—whose training paid for by Canadians in Canadian schools and universities supported by Canadian public money, thus goes out to make foreign countries lich and place Canada further in their debt for foreign goods and services.

Monopolies of knowledge—that is, monopolies of special branches technical knowledge—constitute one of the most powerful weapons of tr

Monopolles of knowledge—that is, monopolles of special branches of technical knowledge—constitute one di file most powerful weapons of trade today.

Secret agreements, combines, trusts and the ordinary method of "conspirates in the restraint of trade," beceme very mild and impotent weapons when compared to such formidable finstruments as, for example, a secret chemical tornulat that might be scribbled on the back of a calling card.

In the bloodless wars for international trade it is the armies of chemists end eighteers that must be mobilized, drilled and directed against the parapter of unknown scientific facts. Export duties, credit lesgues, intelligence departments, persuasive salesmanship and even the magic of a great flag-cannot win or cannot hold, for long, trade for a country whose producers are not armed with scientific knowledge of their work.

A great camera manufacturing concern in the United States is able to dominate its field in at least half the world because it knows more scientific secrets of that trade than shyone eise. Because, if a new concern started in opposition, it need only reach into its pigeon holes for some new formulamot otherwise convenient to exploit at present—by which to raise its productions step beyond the competition of the would-tie rival.

So in steatiles! So in chemistry! So in agriculture! So in every important branch of human industry!

So in chanada—as compared to other nations—everyone of our industries threatened, and must ultimately fail under the thrall of foreign domination unless it keeps pace with the advances in technical knowledge.

So, unless we master all that is to be known regarding the native and possibilities of our vast supplies of varied raw materials, Canadians must ultimately flat themselves at the mercy of foreigners who know how to prepare our riches for purposes of commerce.

Fifty concerns in the Hulted States retain research departments at costs ranging from \$25,000 to \$2,000,000 a year. In England, France and Germany, the race for technical know

Relic Of Babylonian Times

Relic UF Dabylonian Times
In Asia Minor
The rulns of a Babylonian colony
dating back 2,400 years before the
Christian era, have been discovered at
Kolsa Nyek, in Asia Minor. The remains discovered prove that the community which lived there was partly
military and partly commercial.
Cunciform inscriptions give many
curious details of the organization
of the city, which was governed, by a
prince and prefect, ausisted by a princeas and a female prefect, whose powers are said to have been precisely
equal to those of their male col-

leagues. The city was known to its admirers as Burns and seems to have been one of the earliest homes of female emancipation.

Records of a regular postal delivery service have been found, the letters being written on baked tiles, of a circular shape. References to an early form of the cheque system have been discovered, a bearer cheque being found which contains instructions to the addressee to pay to the person named in it a stated sum.

Golf At Pacific Coast

Game is Played Every Day in the Year

Game is Played Every Oay in the Year At Victoria

There are no better known golf courses in the Dominion than those at Victoria on Vancouver Island, no doubt due to the fact that the game is played every day in the year.

One of the delights of the winter visit to the Coast is to enjoy again the favored summer sport. It will, therefore, come as a pleasant announcement to know that the Canadian Pácific Railway has completed arrangements whereby guests of the Empress Holei at Victoria will be accorded playing privileges on the excellent 18-hole Colwood Course.

Germany's 1921 Frep
The official German crop report
gives the following production figures
Tor 1921: Rye and wheat, 9,39,647
tons; barley, 1,93595 tons; cats, 6,
040,933 tons; polatoes, 26,161,360 tons.
Of this production the government's
share is 2,560,000 tons, but only 70
per cent. has been delivered, the report says.

To Cross Niagarz Fails On A Wire James E. Hardy, a native and rest dent of Toronto, who crossed the Nia-gara River near the falls on a wire twice in July, 1896, is going to try the feat again this summer, he announced. Mr. Hardy is 48 years of age.

LET GILLETT'S LYE DO IT- C

Make it your handy household assistant. Use it for making soap, in washing dishes, for cleaning sinks, refrigerators, garbage cans, etc., for cleaning clogged drain pipes, for removing grease and smoke stains, for scrubbing floors and tiling. You will find that the systematic use of Gillett's Lye will keep everything around the kitchen and bath room clean, sweet and wholesome. Cleans and disinfects. Is economical and sure in its effects. Has been the standard for over 50 years. It saves labor, time and trouble.

Praises Canadian Justice

Praises Canadian Justice

Protection for the Public is the First Consideration

The superiority of Canadian justice, and of the Canadian people's attitude toward law, is the subject of comment by Judge Kayanagh, of the Illinois Superior Court. He has satisfied- himself of the effect, but seems doubtful as to the cause. In a Chicago newspaper, he is quoted as follows:

"A few of the most observable differences in Canada may be noticed at once. For example, the administrations of the crimmal, law there are absolutely beyond the reach of politica, The chief of police of any Canadian city is secure in his office for life if he makes good. So is every police man, the Judge is there for life; and so practically is the proseculing attors.

man; the 'judge' is there for life; and so practically is the prosecuting attorney. The penalties imposed for vicious crimes are twice as severe as our own. In fact, the entire Canadian theory seems to involve protection to the public, with only a secondary concern for the criminal. Above all, there prevaits an undefined but palpable difference in the attitude of two men or the street—the Canadian and the American."

Law Makers **Grinding Away**

Grinding Away

Most of the past week in the legislanter has been spent in consideration of various bills on second reading and in committee of the whole. Several imeasures were advanced to their third reading, including the highways bill, which provides for a highway commissioner, and hoard of five. The bill will become effective as to administration January 1st, 1923, but provision is made for the appointment of the roads board in order that they might complete plans for highway construction the coming summer. The board will not have jurisdiction over cities. The bill to guarantee the bonds of the United Irrigation district, near Cardston, for \$445,000, was passed. The bill to create a labor bureau branch and to provide for the appointment of a labor commissioner, was passed also.

Amendments to the domestic will.

der consideration by the municipal law committee. These amendments in-clude certain important changes re-lative to the municipal administration of these cities, among them being one that will provide that the city coun-cils act as boards of health. Edmon-ton is asking power to impose an in-come tax, but this right may be re-served still by the provincial govern-ment. The committee has agreed up-on the clause giving Calgary city very wide powers of licensing people and businesses.

Proposed amendments to the li-

of the advisory board \$2.034.

Questions by Mr. Mills, of Atha-asca, as to whether it was the intenbasea, as to whether it was the inten-tion of the government to extend the A. and G. W. to Ft McMurray in ac-cordance with charter and guarantee, brought a reply from Horn. Mr. Smith that there was nothing in the charter of the railways to require it to be built into Fort McMurray, and it was found not in the public interest to do so.

Was round not in the public interest to do so.

The motion by Alex Moore, and J. R. Love that any adverse vote against the government on any measure should not be considered a want of confidence vote unless so expressed, is still standing on the order paper, and will not be in debate until this week some time.

Members of the legislature were guests of the faculty and studquhs of the Alberta University on Wednesday when they were shown over the buildings and various demonstration plants of the university, and entertained at luncheon.

on Friday afternoon the minimum wage bill was reported for third read ing, after recieving one or two amend ments in committee of the whole. wage bill wag reported for third read-ing, after recieving one'r two amend-ments in committee of the whole. A suggestion of Dr. Stewart, of Leth-bridge, that the act provide against married women holding positions when their husbands were carning salaries, was not considered.

The act to license produce commis-sion merchants was amended to in-clude commission men handling milk.

clude commission men handling milk.

Farmers in the Province are taking a keener interest than ever before in poultry raising, according to J. H. Hare, Poultry Commissioner of the Province, who has been holding poultry meetings at several points in the south, in company with Jos. Shackleton, manager of the government poultry plant. Mr. Hare states that the meetings he has held have been extremely well attended, and the farmers display a new eagerness to get into the poultry industry as one branch diversified farming.

Further series of these meetings have been arranged by the Department of Agriculture to be hel don the C, and E, line south of Red Deer, and also in the Coronation district. These meetings will be held as follows:

Crossfield, March 6th; Carstairs,

The bill to recreate a labor bureau branch and to provide for the appointment of a labor commissioner, was passed also.

Amendments to the domestic animals act were's passed, including or beep in closed areas, which caused considerable debate in the house. These amendments were given third reading. Bills reaching second reading last week included amendment to the rand act providing that the mark of any brand upon stock bearing the troversment brand shall not be evidence of the ownership of such stock by the owner of the brand. Amendment to the agricultural societies ordinance providing for government grant to assettice—holding plowing matches sudge certain conditions, amendment to the agricultural section of and. The bill to provide compulsory measures for the externation of agricultural pests has also been advanced a stage. Mr. Brownlee's bulk sales act has been advanced, with the change that the limitations for roscuttons for violations has been extended from 60 days to six months. The bill regarding minimum wags for women was still in the committee stage at the end of the week.

Bills introduced during the week. The bill regarding minimum wags for women was still in the committee that the did to provide for adjustments of assessments, and yhon. Mr. Brownlee is no met of the certain of the section of landing for government and the section of the active of the section of the certain of the section of the active of the section of the certain of the section of the active of the section of the active

a is asking, me tax, but this red at the clause giving Calgary city cery wide powers of licensing people and businesses.

Proposed amendments to the liquor act will probably be introduced next week by Attoracy-General Brownlee. He estimates that these amendments may not be very extensive. R. C. Edwards, member for Calgary has given notice that he will ask the a plebiscite on liquor confrol, in accordance with what he claims is the U. F. A. platform.

Amendments to the mines act are being considered, one of which would provide that mine managers have the company, and one third by the railway Brown that the claims is decimally and the claims is more to the considered, one of which would provide that mine managers have the company, and one third each by the company, and one thir

ment may make its own suggestions as to amendments when the act comes up for consideration in the dominion house.

Creation of a central auditing offlice for all for the province, this offlicial to be named by the elegislature, is the recommendation made in an interim report submitted to the Premier by the firms of Harvey, Cole, Richardson and Robertson, and Geo. A. Touche & Co., who have been conducting the higher than the consideration of the collection of

apply to the Utilities Board to apply to the Utilities Board to in-crease the rates the company is charg-ing in the towns of Lethbridge, Mac-leod, Claresholm, Granum and Nan-ton. Mr. Brownlee is sending a query to the towns effected, asking their at-titude on the application of the gas

to the towns effected, asking their attitude on the application of the gas company.

Elimination of many of the special subjects now taught in the intermediary grades of the public schools, in order that more time may be given to the teaching of the fundamental subjects, is being discussed by the general committée on revision of public school curriculum which has been in session in Edmonton funcione time. (Provincial Police Report)

A total of 16,084 cases were handled in police courts in the provincial d'in police courts in the provincial police given to the legislature on Thursday. Of this number the provincial police force took care of 6,851 cases, and 9,233 cases, were handled by the city police of Edmonton, Catgary, Lethbridge, Medicine Hat and Red Deer.

Lethbridge, Medicine Hat and neo Deer.

The provincial police set a good re-cord for convictions, obtaining con-victions in 55, per cent of the cases. There were 1226 convictions under the Liquor Act. Uniformed police Hand-led 1002 of these and the liquor squad 264 of them. There was a decrease of 177 liquor cases from 1220. The force now includes nine officers and 176 non-commissioned officers and men. The provincial police during the year as-sisted the dominion inland revenue de-partment in handling illicit stills, partment in handling illicit still handling 91 cases under The Domin ion Act.

COAL MINES REPORT

COAL MINES REPORT

Production of coal in Alberta totaled 5,927,270 tons in 1921, says the
report of the Provincial Coal Mines
Branch given to the house by Premier Greenfield. This was a decrease of
981,653 tons from 1920. A total of
3,429,960 tons was consumed in the
Province, the bialance being shipped
out. A total of 133,823 tons going to
the United States. During the year
333 coal mines were in operation.
Ninty coal mines were opened, 17 reopened and 17 abandoned. In addition 33 closed in 1920 were abandoned?
and 43 closed in 1920 were abandoned?
and 43 closed temporarily. Number of
persons employed last year was 12,
204, or 143 less than in December
1920. A total of 62,466 tons of briqtuettes was produced. The Grows' Nest
field produced 1,272,181 tons, the
Lettbridge field 76,607 tons, the
Drumheller field 369,456 tons, the
Drumheller field 369,456 tons, the
Drumheller field 369,456 tons, Edmonton
field 87,396 tons, Cardiff field 135,
491 tons, and the Cammor field 266,
26 tons. Domestic coal produced total
d 2,348,111 tons, bituminous 2,887,185
tons and anthreate 9,6374 tons.

J. D. Smith, Superintendent of the Seed and Weed Branch reports on the difficulty in enforcing The Weed Act when farbers have been financially unable to spend much on destruction of weeds. He states that one of the alarming features of the difficulty in controlling weeds in the utter indifference of municipalities in regard to their responsibilities in the matter.

Demand for seed grain during th Demand for seed grain during the year was much less than formerly. The total distribution amounting to 36,600 bushels, wheat, 44,605 bushels oats, 436 bushels barley, 20,605 bush, fall rye, distributed among 1300 farmers, the total value being \$105,1 005.78 an average of about \$81 per applicant. Total collections on seed grain accounts were small, owing to financial conditions, the total being \$37,000 leaving a balance outstanding of \$1,299,890.87.

Reference to the unsatisfactory condition of the Livestock Industry in the province owing to loss of markets and deflated prices, is referred to in the report of the Livestock Commissioner S. G. Carlyle.

Mr. Carlyle states there is a good demand for good dairy cattle, but draws attention to the fact that, while development of the dairy industry is a desirable thing, raising of beef cattle by farmers should not be neglected, since mixed farming is replacing ranching, and therefor farmers will be depended upon for beef cattle.

GIVE US THE NEWS

We presume there never was a newspaper in any locality that gave all the local happeniags. It is often that some one comes or goes that the reporter does not see. It happens that the family is missed several times. They get the impression that the editor does not care to mention them. This is a mistake. In most hardest work connected with a newscountry towns the local work is the paper. A man may be a good editorial writer, but a flat failure in the local work, and vise versa. Editorial material is obtained by study; by reading newspapers, sometimes by using seissors. Personals and local happenings can't be read and clipped from other papers, not by a jugful. It takes physical as well as mental exertion to get out one or two columns of local news in a town of this size. Most people take a local paper to get the local happenings. Don't be afraid to tell the editor or reporter that you have friends visiting you. There are lots of people whe are interested in your friends. You owe it as your duty then to let your friends know of their det.

"The Church is too old fashioned," said an unaympathetic and represent-ative critic the other day: That remark which is but an echo of superficial street-talk, betrays either a pathetic ignorance of history or an utter inability to appreciate the significance of words. One wonders what kind of church this thoughtless critic would like. But apparently it would be an institution so secularized, so skilled in compromise, so cleverly camouffaged that its distinctive sanctity would be gone.

compromise, so cleverly camouflaged that its distinctive sanctity would be gone.

If he had said the opposite, his intelligence would have been reputable. But old-fashioned? Surely pit table. But old-fashioned? Surely pit table the interplet and persistent intrusiveness of the early daya? Where is the prophetic earnestness, the apostolic fervor, the puritan virility? Where is the impressive "separateness" of the old fashioned christians? "Where is the impressive "separateness" of the days when the Church indeed moved like a mighty army!" One is tempted to remark that the modern 'warriors' show little evidence either of struggle ended or conflict pending, Old-fashioned? Surely the critic has overlooked the thrilling records of heroic sacrifice, of indomitable enterprise, of revolutionary achievement!

Comfort and luxury have softened us, have made us morally languorous and inert. We want preachers to be "good mixers," washer than outspoken frophets. We seek the "line-of least resistance;" we bow to convention.

There is nothing more needed in this tage of stagnant respectability, than an old-fashioned religion, with its courageous conscientiouspess, its no-ble non-comformity, its healthy simplicity of life, its intense fear of 6d. A revival of that would bring about miracles of social readjustment and blazing fires would soon be lighted it

A Stitch in Time

A Stitch in Time

Quick action is the only hope when kidney disease appears.

There is a whole train of dreadfully painful and fatal ailments which soon follow any neglect to get the kidneys right. Among others are rheumatism, lumbago, Bright's disease, hardening of the arteries and high blood pressure.

In Dr. Chase's Kidney-Liver Pills you will find a treatment which is both quick and thorough.

Mr. C. E. Raymus, Lindale, Alta, writes:—

"I was great sufferer from kidney disease and lame back for more than a year. A friend of mine one day bald me of Dr. Chase's Kidney-Liver Pills, and acting one his advice I bried them. After I had taken one box used five boxes. By this time I felt as well and strong as ever, and am glad to recommend Dr. Chase's Kidney-Liver Pills to anyone suffering as I did."

Children Cry for Fletcher's

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specialty prepared for bables. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Cactor Oil, Paregaric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the rollef of Constipation, Flattulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. She Suffered Terribly and Was so Bad She Could Not Do Her House Work —What Dodd's Kidney Pills Did For Her.

Who Are Canadian Authors?

Drawing the Line is Sometimes a Difficult Matter
Canadians, it is said, have no right to claim Robert V. Service as a Canadian poet, because he was born in England and nurtured in Scotland. Then, if we claim him as a Canadian because his work was done in Canadian, because his work was done in Canadian, because his work was done in Canadian, we are asked what right we have to claim Gibbert Parker, Bilsa Carman and others who were born in Canada and did most of their work in other countries. In the face of this dillenium, we can only take refuge in the saying that it is difficult to draw the line.

We have to consider the place of birth, the place of education, where the author, lived when he was doing his work and the nature of the field which he chose for his themes, and it may be that in-some cases the honor must be divided. Take another case, that of statesmen. Sir John Macdonald and George Brown were byth born in Scotland; we claim both as Canadians, but somathow Brown seems to be the more distinctively Scottish of the two. One consolation is that, there being no law or tribunal to decide, we can claim anybod we please, and we shall not be offeended if theyer are rival claimants who pay us the compliment of sharing in our admiration. We are paying homage to the same Sovereign, not courting the same lady.—The Toronto Globe.

THOUSANDS CONVERTED

Through Ignorance, many have suf-fered sedies and poins long thought in-nourable. But doubt quickly turns to bellef when Sciatica, Lumbago, and Neuralgia are healed with Nervi-line. It's soothing healing powers are really wonderful. Nerviline sinks in quickly. It penetrates into the sore muscles and brings grateful re-lief. The hundred and one minor its that come to eyery family yield quick-ly to Nerviline. Try it. 35c at all dealers.

Germany Building Ships

Germany Building Ships

100 Vessels Are Built in Germany During 1921

One hundred vessel of approximate by 460,000 gross tons, were built in Germany during 1921, cerording to Information compiled by the American User Manner Completed by the American User Manner Completed by the American User Manner Completed for Hungray American Line, which Is the the Shipping. Of this number 18 of 86,000 tons were constructed for the Hamburg-American Line, which Hamburg-American Line, which

If Tormented With Corns. Use Good Old "Putnam's."

It's really a simple thing to remove your corns, and without pain; If you apply Putnam's Painless Corn Extractor. It acts like magic, lifts out the corn, root and branch, leaves the skin smooth as silk. No failure with "Putnam's," 25c everywhere.

What Pluck Did

A boy in New Jersey, eighteen years old has signed a contract to purchase a farm for \$18,500. Orphaned at ten, he undertook to make a living for his ann and three sisters from the farm that his father had rented. Not only did he do it but he saved money—enough now to pay the first installment on the purchase price of the property. He will come into full legal ownership when he is twenty-one years old, Opportunity still loves one years old. Opportunity still loves pluck.—Youth's Companion.

others."

You can get Dr. Williams Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams Medicine Co., Brockville, Ont.

Canada Should Keep Her Cheese Industry

Large Amounts Could be Absorbed by

Large Amounts Could be Abserbed by Foreign Markets
Whilst Canada Is materially no loser in the taking away from one industry to build up another; it would be regretful if the cheese industry, in which the Dominion has achieved such renown and created such a universal demand for her product, should be permitted to decline, and it is gratifying to witness indications of a return to pristine importance before serious loss has been effected. That the dairy industry is on a wonderful scale of ascending progress there is every evidence, and there still remain the widest possibilities for profit in the Industry. Practically the entire output is at the present time exported, and there is no doubt that with the name it has universally won for itself foreign markets could absorb much more. The recent awards in London must assuredly be the occasion of fresil interest in this old Canadian Industry.

Gray Crepe de Chine Tea Dance Frock

Pointed panels find increasing favor, as they are invaluable in achieving the irregular hemline. Sometimes flying panels show points only at the bottom, as pictured here. In other frocks, the panel top is also pointed, with its tip attached at the waistine.

waistline.
Gray crepe de chine is the medium for this attractive tea dance frock. It slips on over the head and is banded at the sleeves and panels in gray squirrel. A smart little squirrel choker is worn above the plain collar. The gray satin hat shows corded rolls edging its turn-up brim, while sliver pins are thrust through at either side.

Time has Tested it.—Dr. Thomas' Eelectric Oil has been on the market upwards of fifty years' and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

Italian Novelist Dies Giovanni Verga, noted Italian novel-lst and poet, died at Rôme recently at the age of 82 years. One of his best known works was Cavalleria Rusti-cana, from which Mascagni's opera was adapted.

Minard's Liniment for Garget in Cows

Be fair to your local merchants. Ask to see his goods and compare prices before sending your money to the mail order houses. You will find that it pays.

Dye Skirt, Dress Or Faded Draperies In Diamond Dyes

Each package of "Diamond Dyes" con-tains directions so simple that any wo-man can dye or its faded, shabby skirts, logs, haughter, draperies, everything, like hors, bay "Diamond Dyes"—on other kind—then perfect home dysing is guar-fore. Tell your druggist whether the material you wish to dye is wool or slik, for the property of the property of the goods. Diamond Dyes never streak, spot, fade, or run.

Egyptian women perform a strange ceremonial dance at innerals which archaeologists have traced back to the ancient ritual for the dead.

Many people are almost crippled with corns. But it is needless suffer ing which can be speedily ended with Holloway's Corn Remover.

The industry of producing motion ictures in the United States represents an investment of five hundred nillion dollars.

"COLD IN THE HEAD"

Repeated attacks of Acute Catarrh may lead to Chronic Catarrh.

HALL'S CATARRH MEDICINE is tak-en internally and acts through the Blood on the Mucous surfaces of the System, thus re-ducing the inflammation and assisting Nature restoring normal conditions.
All Druggists. Circulars free.

MRS. ANNA E. HUGHES, Chicago, III.

MRS. ANNA E. HOUTES,
Chicago, III.

Mrs. Anna E. Hughes, 22 West Ein
St., Chicago, an artist who enjoys a
wide and enviable reputation for skill
in china painting, in relating the facts
of her remarkable experience with
Tanlac, says;

"I haven't enjoyed, such good health
or felt so well in evedy way in years
as I do now. Before I took Tanlac I
was so run down that half an hour at
my work would tire me completely
out and I was actually so nervous and
weak that at times the brush would
fail from-my hands and I would have
to quit work for the rest of the day.
Every night I would lie awake for
hours, miserable and nervous.
"My improvement after the first
few doses of Tanlac was rapid and
constant. I'm happy to say I'm well
and strong now and feel better than
in twenty years. Tanlac deserves
every word of praise I can give it."
Tanlac is sold by all good druggists."

Save the bird in hand-The other's may be hard to catch

With enough money, enough time and enough luck, a man may get back the health he has lost—or part of it.

It takes patience, too.

And then there may be no success, or only a little.

It's better to save what you have than hunt for what you've lost—as the most successful health-restorers will tell you.

Much of the loss of health is due to faulty, careless diet. Wrong meals at all times and right meals at wrong times load the long-suffering digestive

organs with elements of destruction, or starve the tissues and glands of needed elements.

Grape-Nuts is a delicious cereal food which has the qualities of scientific nutrition. It supplies the full richness of those splendid food grains, wheat and malted barley, together with the vital mineral elements, so often lacking from foods. Served with cream or good milk, Grape-Nuts gives full nourishment without over-loading the stomach.

AVONGLEN NEWS

The Teacher and Pupils with the aid of some local talent are putting on a concert on March 17th, program consists of Songs, Dialogues and Recitations. Folk dancing in coatume appropriate for St. Patrick's day, some excellent items are being prepared which will please the most skeptical.

Don't fail to be at Avonglen at 8.30 P. M. on the eve of March 17th and have your share of the fun. Dance after program.

The ladies of Avonglen have made a comfortable quilt and are selling tickets on same. Four other prizes have been donated. Any tickets sold gives the holder a chance on Comforter or any of the prizes. Comforter will be raffied to the lucky parties following the program on March 17th. Secure your tickets on this and be a winner.

M. D. OF BATTLE RIVER ELECTION RETURNS

ELECTION RETURNS
The election of councillors for the Municipality of Battle River was held last Monday when the following councillors were elected:
Ward 1 F. B. Gano.
Ward 2 J. J. Armstrong.
Ward 3 Jas. McDonald.
Ward 4 A. A. Fischer.
Ward 5 W. A. Burton.
Ward 6 G. B. Goulding.
The first meeting of the new council will be held next Monday.

ORDER REPAIRS NOW

The farmer gazed with heavy frown Upon his drill, broken down, Then hastened to Irma town

Then hasteped to Irma town
To buy repairs.
He told McDowell of his woe,
And how much grain he had to sow,
But not a number did he know
Nor seemed to care.
"The part I want," he wisely said
Its hollowed out and painted red,
I had the number in my head,
But I forgot.
It holds the thing-um-bob in place
About an inch from that long brace
That fastens to the big main brace,
And keeps it set.
Mac—he sighed and shook his head,
"I don't know what you mean," he ead,

And xeeps it set.

Mac—he sighed and shook his head,

"I don't know what you mean," he
he said,

But I have it.

We'll have to search the extra shed.
From end to end he searched the bins,
And skinned his fingers and his shins.
It made him "cuss"

"That's it" the farmer cried with glee,
I thought 'twas number thirty three.
Now what's the price of that to me?
Great Jumpin' Frogs
Not forty cents? An awful rate
For a part that hasn't got no weight.
Oh, well, just put it on the slate.
McDowell said 'No' repairs are cash
The same as nails, tea and gas,
In 1922.

CARD OF THANKS
